

Elementary School Workshops

2012-2013

- 60 minutes in duration and can be presented in English or French.
- Most appropriate for Grades 1-6, some topics suitable for Grades 7 & 8 (ask us for details).
- You choose the topic and we supply all the materials, equipment and scientist(s) needed.
- Over 40 topics from which to choose.
- Each workshop is jam-packed with exciting demonstrations and hands-on activities.
- We come to you so there is no need to rent buses, get waivers signed or recruit parent volunteers. Our workshops are like an in-class field trip!
- Our workshops are highly educational and complement the Ontario Science and Technology Curriculum.
- We provide a "Pre-and-Post Workshop" package that contains resources and activity ideas (including language arts and math extensions) designed to maximize the educational impact of each workshop.
- Many of our workshops include a take-home item and home lab experiments for each child.
- After School Program Partner Schools always get our lowest workshop price!
- No deposits required and your satisfaction is guaranteed.

WORKSHOP SPECIAL!

Workshop of the Month

\$10 off the price of the workshop of the month. Each month one of our workshops is specially priced at \$145 for a single workshop! Summer, PA Day & March Break workshop specials are also available.

September Your Choice!	October Weather	November Movie Effects	December Magnetic Magic	January Dry Ice
February Optical Illusions	March Your Choice!	April Sonic Sound	May Your Choice!	June Your Choice!

PRICE MATRIX

After School Program Partner Schools always get the 6+ volume discount price!

Number of Workshops Booked	1	2	3	4	5	6+
Price per Workshop	\$155	\$153	\$151	\$149	\$147	\$145

Book multiple workshops at the same time and save!

Prices as of September 1, 2012. HST extra. **A travel fee may apply.** Pricing includes all materials for up to 25 children. Additional children incur a \$1.25 plus HST per child materials fee. Additional materials fee applies to Lights, Colour, Action!, Machines, Mission: Nutrition & Rocket Building. Maximum class size is 35 children.
